

Control

N55000

Tread design for high performance

- Tread designed to ensure stability and comfort under high performance
- Non-directional tread pattern allows for a wide range of applications
- Solid center tread block to ensure a stable and quiet ride
- High comfort due to the evenly distributed footprint
- Best handling characteristics, even at high speeds
- High safety ensured by an excellent grip on dry and wet roads
- Specially designed for mid-range vehicles.

* Only sizes with fuel, grip, noise & db values are EU approved.
